Excerpts from Cultivating Curiosity in K-12 Classrooms

Allow Autonomous and Effortless Learning

- *Humans are exquisite learners.*
- *Children can learn effortlessly and on their own, given the right social conditions.*
- *Children can learn such complex skills as speaking, reading, using computers and using tools without any formal instruction.*
- *Effortless learning occurs when children work with more advanced peers and when they join communities of learners.*
- *Teachers can trust curiosity to guide children to learning.*

Link Crew's 3rd Annual Cocoa and Cram was a giant success! Attendance was terrific and the students enjoyed study activities, games, and tutoring, all organized by our Link Crew Leaders. We'd like to offer a special thanks to Gary Reed and Paul Haase for helping with setup and Terry Fortunato and Tom Teegarden for lending a hand with the 9th graders.
