

Future Falcon Open House / Virtual Town Hall

On **February 1st at 6:00 pm**, we will be hosting a virtual Town Hall in lieu of our traditional Future Falcon Open House for students and their parents. During the Town Hall, we will go over the components that make Catalina Foothills High School such a wonderful environment for students. We will cover general facts about the high school, hear from students about their experience, explore course options, activities, clubs, and athletics, and go over the registration process. This event is open to rising 8th grade students and parents, as well as new Open Enrollment 10th - 12th grade families.

Following the general presentation, we will present information on Career Technical Education (CTE) course options and Advanced Placement (AP) options. Finally, we will be putting together videos with course-specific information for students and families to peruse on their own time. We are also partnering with the middle schools in the district to provide opportunities for our current students to learn more about high school and ask questions.

We hope you choose to join us! We will provide more specifics and links to events as the dates draws nearer.

CFHS Virtual Falcons Fly-in

We will hold our annual Falcon Fly-ins for rising 8th graders virtually this year during the school day for students. Save the dates:

OGMS - February 2nd

ECMS - February 9th
